PPSACanada.com Acquires Equifax PPSA Division – February 2002

In Feb 2002 Equifax divested its interest in PPSA and their PPSA division was purchased by PPSACanada.com. We relocated our offices to their building and took on a number of their staff. In the process of acquiring their client base, we converted many from a manual fax-in method of requesting to submitting electronically on the web. To more efficiently service our vast client base we converted the old manual paper processes into an integrated document management and billing system that automates the processing of electronic requests start to finish.
